

**Supporting Energy Efficiency on the National Level in frames of GIZ project
“Establishment of Energy Agencies in Ukraine”**

Client

GIZ

Country

Ukraine

Duration

from 02.2015 to 12.2017

Services of iC

- Policy monitoring
- Participation in working groups
- Preparation of analytical documents / methodology on energy efficiency

Project objectives

The aim of the Project is to support energy saving and energy efficiency in Ukraine by means of ensuring the framework conditions on the national level with further support on stimulating practical steps towards energy saving on the municipal level

Project description

- Support of the appropriate institutional framework and other relevant national stakeholders with establishment and further functioning of the Energy Agencies
- Cooperation with the Ministry of regional development, housing and communal services via participation in the Ministry’s Working Group on energy efficiency
- Monitoring of relevant news related to regulatory or legal aspects of energy market
- Preparation of the analytical strategy document, which improved the national and local framework for energy efficiency and establishment of energy agencies in Ukraine. The strategy document was based on a broad survey conducted among key stakeholders on national, regional and municipal level, both, governmental and non-governmental actors

Project data

3 publications were prepared:

- EnPC (Energy Performance Contracts) guide – the publication aimed at covering the latest developments in the EnPC market in Ukraine, including required legal and institutional framework issues
- Methodology guide for Housing Unions, which ensured effective preparation of energy efficiency projects for investment
- Analytical strategy document “Energy Efficiency: on the way to reforms”

Services

- Development of analytical strategy document “Energy Efficiency: on the way to reforms”
- Co-authoring and editing the EnPC guide
- Development of Methodology for Energy Efficiency projects in residential sector for Housing Unions
- Institutional and policy monitoring
- Participation in public events and the working group of the Ministry of Regional development on behalf of the Client
